Summary

Third year university student studying biology and computer science. Interested in seeing the two fields work together and create solutions for science and society. Has experience working in a team and would love to continue doing so.

Skills

- Java
- HTML & CSS (beginner)
- Microsoft Excel, Word, Powerpoint: graph & chart data, calculations, create documents and slides
- Cooperative: loves to work with people
- Vietnamese, English: Speaks and writes fluently

Volunteer Experience

FEBRUARY 2018 - MARCH 2018

UBC Let's Talk Science, Vancouver, B.C. – Program Volunteer

- Hosted & planned science activities/presentations for 6th grade class from an underprivileged school
- Prepared materials and ran over demonstrations with program leader and team
- Engaged small groups of students in practising the scientific method with games and experiments

FEBRUARY 2014 - JUNE 2016 (Volunteering)

Trout Lake Youth Council, Vancouver, B.C. – Secretary & Leader of Arts and Crafts Committee

- Managed the council's member register and volunteer hours using Microsoft Excel spreadsheets
- Generated attendance sheets and organized papers
- Collaborated with the executive team to plan events
- Led a team of volunteers to design and prepare art activities for families
- Provided customer service to a wide age range of attendees during events

SEPTEMBER 2011 - APRIL 2016 (Volunteering & Community Service Course)

Gladstone Secondary Library, Vancouver, B.C. – Library Monitor, Librarian Helper

- Ensured upkeep of library equipment, processed and repaired books
- Coordinated the use of borrowable materials using the library database
- Maintained order of materials using the Dewey Decimal System
- Assisted the librarian with clerical tasks, and students with inquiries
